Software Requirements Document (SRD)

VPro Skills – Upcoming Batches Web Page

Item	Details
Project Name	VPro Skills – Upcoming Batches Web Page
Document Type	Software Requirements Document (SRD)
Version	1.0 (Draft for Review)
Prepared On	15 October 2026
Reference Document	VPro_Skills_BRD.md (Version 1.0)
Document Owner	TBD
Approved By	TBD

1. Project Overview

This document describes the software requirements for the **VPro Skills Upcoming Batches Web Page**, based on the Business Requirements Document (BRD).

The system is a single, static, responsive web page that:

- Displays the VPro Skills company name.
- Lists upcoming training batches using course cards.
- Lets users view more details for each course and batch.
- Uses sample data stored within the page project.
- Works on desktop, tablet, and mobile screens.

The scope matches the BRD. Login, enrollment, payments, LMS features, assessments, contact forms, and backend integrations are **out of scope**.

2. Functional Requirements

ID	Requirement	Related BR
SR-001	The page shall display the company name **"VPro Skills"** in the page header.	BR-001
SR-002	The page shall display a section titled **"Upcoming Batches"** (final heading text: TBD).	BR-002
SR-003	The Upcoming Batches section shall display one course card for each batch in the sample data.	BR-002, BR-004
SR-004	The sample data shall include at least one batch each for **Forward Deployed Engineer (FDE)**, **Agentic AI**, and **Generative AI**.	BR-003

ID	Requirement	Related BR
SR-005	Each course card shall display the summary fields defined in Section 5 in the same order and format.	BR-004
SR-006	Each course card shall include a clearly labelled action (for example, **"View Details"**) to open more information about that batch.	BR-005
SR-007	Selecting the details action shall show the full course and batch details (defined in Section 5) for the selected batch only, using an expandable panel or a pop-up window (modal).	BR-005
SR-008	The user shall be able to close the details view and return to the list of batches without reloading the page.	BR-005
SR-009	The page shall load all course and batch content from a single sample data source within the project (for example, a JavaScript array or JSON file).	BR-008
SR-010	Any field without a confirmed value shall be displayed as **"TBD"**.	BR-008
SR-011	The page shall not include login, registration, enrollment, payment, LMS, assessment, contact form, or backend features.	BR-009

3. Non-Functional Requirements

ID	Category	Requirement	Related BR
SR-012	Performance	The page shall fully load within 3 seconds on a standard broadband connection.	BR-007
SR-013	Usability	A first-time user shall be able to find any batch and open its details without instructions.	BR-005
SR-014	Accessibility	All interactive elements shall be usable with a keyboard (Tab, Enter, Esc).	BR-005, BR-007
SR-015	Accessibility	Text shall have a color contrast ratio of at least 4.5:1 against its background (WCAG 2.1 AA).	BR-006
SR-016	Accessibility	All images and icons that carry meaning shall have descriptive alternative text.	BR-006
SR-017	Compatibility	The page shall work in the latest two versions of Google Chrome, Mozilla Firefox, Apple Safari, and Microsoft Edge.	BR-007
SR-018	Maintainability	Course and batch content shall be editable in the sample data source without changing page layout code.	BR-008
SR-019	Simplicity	The page shall be built without a backend, database, or third-party API calls.	BR-009

4. User Interface Requirements

ID	Requirement	Related BR
SR-020	The page shall have three main areas: **Header** (company name), **Upcoming Batches section** (course cards), and **Footer**.	BR-001, BR-002
SR-021	The footer shall show the VPro Skills name. Any further footer content (address, contact, social links, copyright text) is **TBD**.	BR-001
SR-022	Course cards shall have the same size, spacing, and visual style within each row.	BR-004, BR-006
SR-023	The course name shall be the most prominent text on each card.	BR-004
SR-024	The design shall use a clean, modern style with consistent fonts, colors, and spacing. Brand logo, colors, and fonts are **TBD**; neutral placeholders shall be used until provided.	BR-006
SR-025	Interactive elements (buttons, links) shall show a visible change on hover and keyboard focus.	BR-005, BR-006
SR-026	Body text shall be at least 16px in size on all screen sizes.	BR-007

5. Course and Batch Information Requirements

5.1 Data Fields

All values below are **TBD** unless confirmed by VPro Skills. The sample data shall contain the field structure only, with "TBD" where values are unknown.

Field	Description	Shown on Card	Shown in Details	Sample Value
Course Name	Name of the training course	Yes	Yes	FDE / Agentic AI / Generative AI
Short Description	One- or two-line course summary	Yes	Yes	TBD
Batch Start Date	Date the batch begins	Yes	Yes	TBD
Duration	Length of the course	Yes	Yes	TBD
Mode	Delivery mode (e.g., online, classroom)	Yes	Yes	TBD
Batch Status	Current state of the batch	Yes	Yes	Upcoming
Schedule / Timings	Days and class timings	No	Yes	TBD
Course Overview	Detailed description of the course	No	Yes	TBD
Topics Covered	List of main topics	No	Yes	TBD

Field	Description	Shown on Card	Shown in Details	Sample Value
Eligibility	Who can join	No	Yes	TBD
Fee	Course fee	No	Yes	TBD

5.2 Data Requirements

ID	Requirement	Related BR
SR-027	Each batch record in the sample data shall contain all fields listed in Section 5.1.	BR-004
SR-028	Every batch shall display its fields in the same order on cards and in the details view.	BR-004
SR-029	No fee, date, schedule, duration, eligibility, or contact value shall appear on the page unless confirmed by VPro Skills; otherwise "TBD" shall be shown.	BR-008
SR-030	Additional courses beyond FDE, Agentic AI, and Generative AI shall be added only when confirmed (list: **TBD**).	BR-003

6. Navigation Requirements

ID	Requirement	Related BR
SR-031	The header shall include a link labelled **"Upcoming Batches"** that scrolls the user to the Upcoming Batches section.	BR-002
SR-032	Selecting the company name in the header shall return the user to the top of the page.	BR-001
SR-033	Users shall open a batch's details from its course card and close them using a visible **Close** control or the **Esc** key.	BR-005
SR-034	When the details view closes, keyboard focus shall return to the card action that opened it.	BR-005
SR-035	The page shall contain no broken links and no links to pages that do not exist.	BR-009

7. Responsive Design Requirements

ID	Screen Type	Width Range	Requirement	Related BR
SR-036	Desktop	1024px and above	Course cards shall display in a grid of 3 cards per row.	BR-007
SR-037	Tablet	768px – 1023px	Course cards shall display in a grid of 2 cards per row.	BR-007

ID	Screen Type	Width Range	Requirement	Related BR
SR-038	Mobile	Below 768px	Course cards shall display in a single column.	BR-007
SR-039	All	320px and above	The page shall have no horizontal scrolling and no overlapping or cut-off content.	BR-007
SR-040	Mobile / Tablet	Below 1024px	Buttons and links shall have a tap area of at least 44 × 44px.	BR-007
SR-041	All	All widths	The details view shall fit within the screen and allow scrolling if its content is longer than the screen height.	BR-005, BR-007

8. Error Handling Requirements

ID	Situation	Expected Behavior	Related BR
SR-042	A batch field is empty or missing in the sample data	The field shall display "TBD". The card shall still display correctly.	BR-008
SR-043	No batches exist in the sample data	The section shall show the message: "No upcoming batches are available at the moment." (final wording: TBD)	BR-002
SR-044	An image or logo fails to load	The layout shall remain intact and the alternative text shall be shown.	BR-006
SR-045	A batch record is incomplete or malformed	The page shall still display all other valid batches without stopping or showing technical errors.	BR-002
SR-046	Any script error occurs	No technical error messages shall be shown to the user.	BR-006

9. Technical Constraints

ID	Constraint
TC-01	The page shall be built using HTML, CSS, and JavaScript only.
TC-02	The page shall be static, with no backend server, database, or server-side code.
TC-03	The page shall not call third-party APIs or external services.
TC-04	All course and batch content shall come from local sample data in the project.
TC-05	Use of any CSS or JavaScript framework is optional and shall be kept minimal (final choice: **TBD**).
TC-06	Hosting environment and domain are **TBD**.
TC-07	Brand assets (logo, colors, fonts) are **TBD**.

10. Acceptance Criteria

ID	Acceptance Criterion	Verifies SR	Traces to BR
AC-01	On page load, "VPro Skills" is visible in the header.	SR-001	BR-001
AC-02	The Upcoming Batches section shows one card per batch in the sample data.	SR-002, SR-003	BR-002
AC-03	Cards for FDE, Agentic AI, and Generative AI are present.	SR-004	BR-003
AC-04	Every card shows the same summary fields in the same order.	SR-005, SR-027, SR-028	BR-004
AC-05	Clicking "View Details" on any card shows details for that batch only.	SR-006, SR-007	BR-005
AC-06	The details view closes using the Close control and the Esc key, without a page reload.	SR-008, SR-033	BR-005
AC-07	All unconfirmed values (fees, dates, timings, eligibility, etc.) are shown as "TBD".	SR-010, SR-029, SR-042	BR-008
AC-08	Changing a value in the sample data updates the page without editing layout code.	SR-009, SR-018	BR-008
AC-09	The card grid shows 3 columns on desktop, 2 on tablet, and 1 on mobile.	SR-036 – SR-038	BR-007
AC-10	At 320px width, there is no horizontal scrolling or cut-off content.	SR-039	BR-007
AC-11	All interactive elements can be reached and used with the keyboard alone.	SR-014, SR-034	BR-005
AC-12	The page loads within 3 seconds on a standard broadband connection.	SR-012	BR-007
AC-13	The page works correctly in the latest two versions of Chrome, Firefox, Safari, and Edge.	SR-017	BR-007
AC-14	With no batch data, the "No upcoming batches" message appears instead of an empty section.	SR-043	BR-002
AC-15	The "Upcoming Batches" header link scrolls to the batches section, and all links work.	SR-031, SR-032, SR-035	BR-002
AC-16	The page contains no login, enrollment, payment, LMS, assessment, contact form, or backend features.	SR-011, SR-019	BR-009
